

The Link Summer 2005

Promoting reuse and recycling in Nebraska

SHELVING FINDS REUSE

Lincoln Benefit Life, a longtime Materials Exchange participant, contacted the Exchange several months ago to list shelving units that had been used to store file folders. Exchange Facilitators recognized the shelving units could have a number of different uses and began contacting schools, non-profit organizations and businesses about the availability of the shelves.

Area businesses re-purposed the shelving units to store machinery parts and office supplies. Non-profit agencies like Lincoln Action Program are using the shelves for their emergency food program to organize, sort, and display donated food items.

Lutheran Family Services in Omaha picked up 15 shelving units for their donation warehouse. They are now being utilized to display items for their Refugee Resettlement Program. The following letter was received by the Materials Exchange in appreciation of our program and the donation from Lincoln Benefit Life.

To the Materials Exchange Program:

We are a Refugee Resettlement program through Lutheran Family Services. We resettle newly arrived refugees into new homes in Omaha. Because refugees come here with basically nothing of their own, we must provide everything they will need to begin their new life here. We completely furnish their homes with the donations we receive from the public, churches, and schools.

Since we are a nonprofit organization, funding for things like shelving for our warehouse is scarce to say the least. We had been keeping everything in boxes and it took some time to locate what we would need because we needed to search through multiple boxes.

The shelving that was donated by Lincoln Benefit Life are actually filing shelves. However, they proved to be quite useful to organize our smaller items such as shoes, hygiene products, cleaning supplies, baby products, and children's school supplies.

I wish to thank you again for this gift on behalf of all the staff of Lutheran Family Services. You have contributed greatly to our mission of serving newly arriving families to the best of our ability.

Amy Shoemake
Lutheran Family Services
Refugee Resettlement

Donated shoes are organized on shelves at Lutheran Family Services in Omaha.

Over 300 units of metal shelving are still available. Contact the Materials Exchange for details!

ECOSTORES NEBRASKA

An innovative, nonprofit store has opened its doors in Lincoln. EcoStores Nebraska, located at 530 West P Street, takes donations of usable construction materials and then sells the material to contractors and individuals at a reduced cost.

EcoStores is operated by the Nebraska Center for Sustainable Construction (NCSC). The goal of NCSC, a subsidiary of the Joslyn Castle Institute for Sustainable Communities (JCI), is to reduce the amount of landfilled debris from building construction and demolition and to promote sustainable construction.

JCI received a grant from the Nebraska Department of Environmental Quality that provided the initial funding to establish the NCSC and to open the store. NCSC will also be providing statewide workshops on deconstruction—dismantling buildings to salvage any reusable materials—and job training to promote sustainable, "green" construction.

EcoStores Nebraska will be open 40 hours a week (from 10:00 am to 6:00 pm Wednesday-Sunday, closed Mondays and Tuesdays). They will take donations of usable building materials from businesses, individuals, and other stores. While EcoStores has received donations of some new items, most of the material available for sale will be salvaged from deconstruction and construction sites.

Items accepted for donation include windows, plumbing and electrical fixtures, furniture, doors, lumber, etc, as well as whole houses for deconstruction. Donations are tax deductible and receipts are provided.

For more information about services of the NCSC, donating material, or shopping at EcoStores Nebraska, call the store at 402-477-3606.

JUNK SCULPTURE PROJECT

Arts are Basic, a program offered by the UNL Hixson-Lied College of the Performing Arts, promotes music, visual arts, dance, and theatre to Nebraska students and teachers. Through educational workshops and hands-on experience, the program promotes a greater understanding of works of art and the artistic process.

Susan Brasch, a visual arts instructor with Arts are Basic, contacted the Materials Exchange when she needed to locate some unique items for a "Junk Sculpture" art project. The project encourages elementary students to use their imagination by creating works of art from discarded items.

Through the Materials Exchange, Ms. Brasch was able to find scrap plastic and metal, bottles, and tin cans that were used to create the unique Junk Sculpture art.

Thanks to all the program participants who provided items for this unique and fun project!

Students from the 5th grade art class at Rousseau Elementary School in Lincoln used discarded materials to create their "Junk Sculpture" art.

Current Listings

HOW TO USE THE LINK LISTINGS: Each listing is assigned both a letter and a number code (e.g., Abcd-1234). The letter code represents the city of origin for the listing and the number code allows Exchange facilitators to identify the listing in our information database.. For a list of city codes, visit our website at www.knb.org. To inquire about any items, contact Keep Nebraska Beautiful: 3201 Pioneers Blvd., Suite 306, Lincoln, NE 68502-5963; call 1-800-486-4562 (in Lincoln 486-4622); fax (402) 486-4563; or email us at info@knb.org.
