## Materials Exchange Program

A Quarterly Materials Exchange Newsletter ♦ Summer1999

### Exchange Celebrates Milestones

The Materials Exchange Program is gearing up to celebrate the end of the two year EPA Grant and the beginning of the Nebraska Waste Reduction and Recycling Incentive Grant, administered by the Nebraska Department of Environmental Quality.

The Materials Exchange Program was started in the Fall of 1994 as a passive program with no field reps to actively seek matches. Two field reps were added in October, 1997 and another half-time field rep was added in January, 1998 thanks to a two year grant from EPA. The program has been so successful that we were just awarded a grant to maintain the program.

Listed below are some of the achievements of the program from July 1, 1998 to the present:

New listings	↔	690 = 88% increase
New matches	↔	304 = 255% increase
New participants	↔	294 = 112% increase
New cities	↔	80 = 118% increase
Pounds diverted	↔	2,012,990 = 780% increase
Total Cost Savings	↔	\$528,897 = 295% increase

One of the biggest challenges over the past year and one-half has been to get the word out about the program with no media budget! Program participants, NICE (Nebraska Industrial Council on the Environment), RC&D's, Nebraska Development Network members, Keep Nebraska Beautiful Board members and many other agencies and individuals have spread the word about the value of working with the program. As people hear about the program, they are excited to become involved.

Please tell your friends and colleagues about the program. We believe there is HUGE potential for the continued rapid growth of the program!

### KNB Golf Tournament

The 3rd Annual KNB Charity Golf Tournament will be held at The Woodland Hills Golf Course near Eagle, Nebraska on September 24th. It will begin at 8:30 AM with a continental breakfast and wrap up with a BBQ lunch and award ceremonies. Call 402-486-4562 if you are interested in participating. Hope to see you on the Links!!

### Program Participants Recognized

In July, Keep Nebraska Beautiful recognized four participants of the Materials Exchange Program at the Annual State Conference Award Luncheon in Kearney. The participants were recognized for their involvement in the program and commitment to diverting materials from Nebraska landfills.

Lance Hedquist, President of the KNB Board, presented awards to: Novartis Consumer Health, Lincoln; McCain Foods USA, Inc., Grand Island; Store Kraft Manufacturing, Inc., Beatrice and the City of Beatrice.

*Donna Blake, Novartis Consumer Health*

*Diane Borrell & Mitch Nickerson, McCain Foods*

*Gary Cook, Store Kraft Manufacturing, Inc.*

*George Pinkerton, City of Beatrice*

Novartis has diverted more than 95,000 lbs. of material with 13 different participants through the exchanges of 375-gallon plastic totes encased in galvanized metal and nailed to a pallet. McCain Foods has diverted more than 72,000 lbs. of material through matches of 5-gallon plastic buckets and Gaylords. Store Kraft has diverted in excess of 51,500 lbs. of materials consisting of pegboard, tables, shelving, doors, and plexiglass with 6 different participants. The City of Beatrice has been the recipient of Store Kraft and Novartis materials. They have taken nearly 30,000 lbs. of various materials, a savings to the city of approximately \$55,000. Congratulations to the recipients and a big thank you to all participants of the program!

# THE EXCHANGE FILES

## ACLOSURE XAMINATION: Success Stories

7/20/99 Platte Center, Nebraska  
 File #: PCen-2427  
 Name: Shell Valley Companies  
 Alias: Unused cardboard book trays

Omaha business discontinued using cardboard book trays for their displays. They had 6 pallets of new cardboard trays weighing approximately 1,000 lbs. each. Shell Valley Companies was seeking cardboard at least 24" wide and 36" long as barrier under steel banding when shipping materials to customers. This exchange saved Shell Valley approximately \$2,000 in purchase costs of similar materials.

6/9/99 Kearney, Nebraska  
 File #: Kear-1412  
 Name: Junkman's Recycling  
 Alias: Computers and peripherals

Omaha company contacts Materials Exchange Program regarding disposal options for numerous pallets of computers, keyboards, printers, and other computer components. Junkman's Recycling in Kearney was contacted, a semi was dispatched to begin the process of picking up more than 100,000# of computers and peripherals. All items will be recycled or reused.

*Two of the 120 pallets of computers and peripherals picked up by Junkman's Recycling*

## INECESS: Surplus Materials

5/26/99 Columbus, Nebraska  
 File #: Colu-2334

Background: Company has large quantities of adhesive films in several sizes, textures and colors. This is ideal for art projects, book covers, outdoor signage, bumper stickers and many other uses.

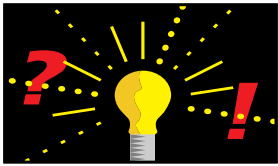

*Examples of the adhesive films*

5/99 Harvard, Omaha and Fremont, Nebraska  
 File#: Harv-2392; Omah-1751; Omah-2437  
 Alias: Fiber drums -- 30 gal. and 55 gal.

Background: Four companies in the above listed communities have large quantities of fiber drums with lids and snap rings. Both 30 gallon and 55 gallon drums are available. Most of these drums are not contaminated, they had plastic liners in them that have been removed.

These are handy for use as recycling bins or scrap material containers on manufacturing floors, etc.

Contact Materials Exchange for more information.

## Bright Ideas.....

Some, if not most, VCR's won't be able to use the programmed advanced recording feature in 2000. BUT, do not throw away your VCR in the year 2000. Instead, set the year on 1972 as the calendar days of the week and month will be the same as the year 2000. Just about everyone has a VCR these days, and it would certainly be a waste for people to buy equipment unnecessarily when they can just REUSE the one they have. Also, a recycler in Nebraska is interested in your computers, young or old!! So, if you or your business will be updating your computer system please call our office.

When you replace your carpet there is an outlet for the foam backing and possibly your carpet if it is nylon. A business in Omaha buys foam pad and can test your carpet, and if it is nylon they may take it. The foam padding is baled and sent off to be used in the manufacture of interior car parts and many other uses. The nylon carpet is baled and sent to a company in Georgia that can incorporate it into new carpet. Depending on the volume, transportation may be provided. Call our office for more information.

**FIGHT FOR THE FUTURE**

## A Match To The Past

This past Spring Weyerhaeuser Paper Company in Omaha discontinued using fully refined paraffin in their manufacturing process. They contacted the Nebraska Materials Exchange Program to discuss reuse options. The material was still in the liquid state in the machinery so they were not certain exactly how much material they would have once it was removed. It was thought to be about ten 55-gallon drums.

One of the Materials Exchange field State Park last year and remembered the living history area. When Superintendent, cated they would need to get some specific so on before they could consider using it. determined it would be a perfect fit for their

Fiber drums that Weyerhaeuser re- the hot paraffin. The amount of paraffin weighing approximately 500 lbs. each.

Indian Cave State Park picked up them to the park near Shubert. Richard to receive the call from the "Governor's program asking if we could use the paraffin for our candle making, which is part of our living history demonstra- tions. It has been an excellent product to work with, and lasts approximately twenty-five percent longer than what we had been using previously. From a financial point, it will certainly help enhance the budget for this year and many more."

This match not only enhanced the budget of the State Park, but also saved Weyerhaeuser Paper Company money in disposal costs and space in a Nebraska landfill.

## National Pollution Prevention Week

September 20-26, 1999, is National Pollution Prevention (P2) Week. National P2 Week began in 1992 in California to acknowledge businesses that had reduced wastes and protected the environment. In 1995 the event became national. A series of events to celebrate business success, promote waste reduction practices, and ways to become more informed about environmental issues and how to protect the environment have been scheduled in Lincoln, Nebraska.

Tuesday, September 21, between 8:00 AM - 12:00 PM three area businesses will host tours so they can showcase their P2 efforts. Transportation will be provided to each location.

Thursday, September 23 from 10:00 AM to 12:00 PM there will be a combined meeting of INFORM and NICE (Nebraska Industrial Council on the Environment) at the Lancaster County Extension office. Businesses will share their waste reduction success stories at this meeting. A complimentary luncheon will follow, with Mike Krumland of Nebraska Public Power District (NPPD) speaking about their P2 activities.

If you are interested in participating, please contact Keep Nebraska Beautiful, 402-486-4562 for more information.

## Calendar of Upcoming Events

**Sept. 8-9** Environmental Management Conference, Lincoln

**Sept. 20-26** National P2 Week

**Sept. 24** KNB Charity Golf Tournament

**Oct. 1** Hazardous Waste Reduction/ Recycling Fair, Lincoln

**Oct. 27-28** EPA Region VII P2 Roundtable

**Nov. 9** WasteWise Satellite Forum on Buying Recycled: The Real Story About Cost, Availability & Quality
